

The Diamond Plan - £2,500

Description

This is our most comprehensive plan. The day starts early at the bride's house. Capturing precious moments as the bridal party prepares for the big day. We then go on to the ceremony, preserving all the splendor of the day. Finally, after the formal photographs are taken, we move to the reception to record the bride and groom's arrival, along with the meeting and greetings of guests. Once we have captured the candid shots of the ensuing congratulations we like to get some photographs of just the two of you as a newly wed couple. We then go on to the Wedding Breakfast, the speeches and concludes at the first dance. The photography will include a combination of reportage and formal style photography, ensuring that not only do we get the all important classical shots but also the ones that reflect your personality and the excitement in the air.
